ARMSTAR
WEARABLE TACTICAL RESPONSE SYSTEM

We are dedicated to providing the future of self-defense in a wearable, hands-free, less than lethal protection device for security, corrections, law enforcement, and the military.

IDENTIFYING GAPS
IN THE PROTECTIVE
SERVICES MARKET

NON LETHAL / LESS LETHAL
advancement is an institutional
and cultural priority that
is actively being sought by
law enforcement and the US
government to deescalate use
of force with the public.

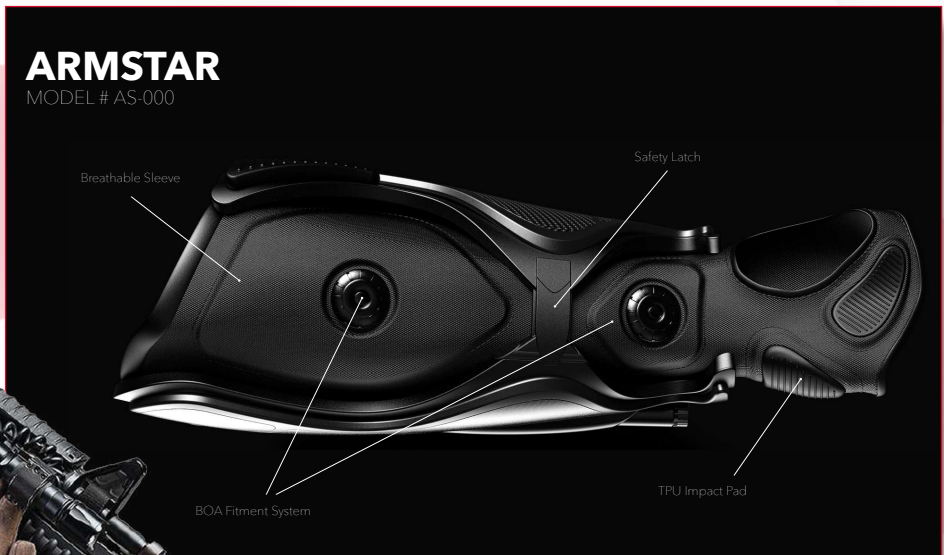

CONNECTED & INTELLIGENT
is an under-addressed, rapidly
growing category of software
enabled capabilities for the
protective service and
defense markets.

WEARABLE TACTICAL
HARDWARE that is integrated,
streamlined, improves ergonomics
and enhances functionality for
the user.

Over 50+ Potential HW
Platform Integrations

- Composite Armored Shell
- Thermal Regulating Inner Sleeve
- Ballistic Nylon + BOA Outer Sleeve
- Kevlar + BOA Outer Sleeve
- HD Camera + Mic
- FLIR IR Camera
- 5K Lumen LED Flashlight
- Visual Disruptor (Green Laser + Flashlight)
- OLED Cap Touch Display
- Privacy Screen /Blackout Layer
- Connectivity (Bluetooth, LoRa, Cellular, WiFi)
- Location Tracking (GPS, LPS)
- AED (Defibrillator)
- Mesh Wireless Camera Display
- Audible Alarm
- Glove W/Trigger Switches
- Hot Swappable LiION Battery
- Target Designator (Red Laser)
- Bio-Sensor Array (HRV, Man Down etc.)
- Metal/Concealed Weapons Detection
- Chemical/Gas Detection
- IR Laser Range Finder
- Cellular Detection/Jamming
- 2-Way RF Radio
- EarPiece BLE Accessory
- Fingerprint Scanner
- Enhanced Antenna & Satellite Coms
- AED (Defibrillator)
- Ballistic Projectile (Elastomer or O.C filled)
- 750K Volt Drive Stunner Module
- PepperBall Blaster System (O.C Powder)
- Time stamp for force deployment
- Comms / Situational Awareness
- Realtime Video Playback
- Facial Recognition
- OCR License Plate Reader
- Language Translator
- Helmet Heads Up Display Compatibility
- VMS System (ONVIF)
- ATAK Compatibility
- UV light - for Counterfeit ID
- Ninja Compatibility - Drone Detection & Alert

ARMSTAR™
WEARABLE TACTICAL RESPONSE SYSTEM

MODEL # AS-001
Stunner / Half Sleeve

- 1.9 Pound Weight w/ Battery
- Flexible OLED Screen
- Wireless & Bluetooth Capable
- Embedded Android OS
- 750k Volt Drive Stunner
- HD Video Camera
- 5K Lumen Flashlight/ Visual Disruptor
- Laser Targeting
