ADVANCED TACTICAL TRAINING SYSTEM
VIRTUAL RANGE SIMULATOR

multi-projector or projection display setups available.

Simulator Projector Screen
120" 8k Screen
Storage Case

Mobile Projector Enclosure
Hard Case with Dust Cover
Power Managment
Cooling System
Ultra-Short Throw UHD Projector

Simulator 4K 90FPS Camera
Camera and Tripod

Simulator Laptop
Core i5-12500H
NVIDIA GeForce RTX 3050
15.6" FHD 144Hz IPS Display
8GB DDR4 | 512GB PCIe Gen 4 SSD
Killer Wi-Fi 6 | Backlit Keyboard

SYSTEMS

ATTS develops cost effective and practical training simulators for both individual and collective training requirements. Laser Shot offers a variety of simulators with options for portability, installed or multi-screen to fit your individual needs. One of our representatives would be happy to go over your requirements and determine which product will work for you.

ATTS Simulation Range is intended to simulate a traditional shooting range but with the use of virtual targets.

ATTS Simulation Range newest technology allows ultra-short throw projectors with integrated hit detection cameras to be installed within 18" of the screen surface reducing the overall footprint required.

The ATTS Simulation Range is scalable and can be delivered in multiples of three lanes per screen allowing for expansion to meet your throughput requirements. Courseware will replicate actual training and qualification standards and built-in editors allow the end user to easily author their own content.
